

AMPERE SIDE TABLE

CRASSEVIG

DESIGNER: GONALO CAMPOS

CRASSEVIG

A design element imagined for present and future perspectives: Ampere, by Gonalo Campos, is a genuine intelligent object with a futuristic taste. This coffee table integrates electrical and USB plugs into its structure, a smart functionality ideal for contract and lounge environments, accompanying poufs, chairs and armchairs in hotel rooms and reception areas. The column at the base is made of powder-coated metal, with an oak or Fenix top.
