

KIM SOFA

DITRE ITALIA

Available in a range of configurations & finishes

Kim stems from the wish to make a sofa that can be used to the full. More than a sofa, we should call it a "system" in which the bookcase module completely alters functions within domestic spaces. If your idea of a bookcase is of an accessory distinct from the sofa, with Kim it becomes part of your couch, an element at its service, creating the idea of a private niche totally dedicated to relaxation.
