

Akashi Collection

design Paolo Vernier — 2022

President and founder of Midj since 1987, [Paolo Vernier](https://www.midj.com/products/designers/paolo-vernier) - <https://www.midj.com/products/designers/paolo-vernier> designs and develops the **Akashi table**, without ever neglecting the functionality and customization of the product.

Proportion and balance are Akashi keywords, a four-legged table able to well interpret domestic needs, but also those related to the office. On first impression, the design strikes for its lightness, obtained thanks to a meticulous study of the construction details. Corners are clear and well defined, as is clearly evident in the square shape of the legs and in their engagement with the top.

From the gentleness of the section to the reduction of thicknesses, to the development of a structural system that allows to reach up to 3 meters in length for the top, without having additional supports. This airiness translates into great practicality and comfort in the use of the table, but also in an aesthetic effect of suspension.

Akashi Extendable Table

Colours and Materials

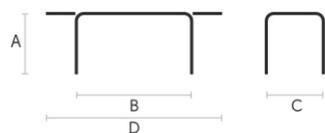

Structure

Papaya orange steel, Light blue metal, White steel, Ocean blue steel, Bronze metal, Sand steel, Fango steel, Golden yellow metal, Pastel yellow steel, Grafite metal, Ash grey metal, Light grey steel, Brown steel, Black steel, Ocher steel, Facepowder pink metal, Red steel, Bulgaro red metal, Cherry red metal, Pine green steel, Sage green metal, Dark green metal
