Livingston

Design Giuseppe Viganò

Anno di produzione 2009

Production year 2009

[It] — Livingston gioca sull'effetto sorpresa tramite un uso inaspettato del poggiatesta che, con un semplice gesto di rotazione, diventa un comodo poggiareni. È dotato di uno schienale "intelligente" accoppiato a un cuscino più piccolo tramite semplici cerniere. La seduta, soffice e informale, dialoga con una struttura aerea in acciaio che dà slancio alla generosità delle cuscinate. La particolarità dello schienale regolabile e la caratteristica del cuscino unico di seduta conferiscono al divano Livingston un profilo unico e originale, declinabile in infinite composizioni.

Struttura

In metallo verniciato nero; molleggio assicurato da cinghie elastiche con anima in polipropilene; braccioli in metallo imbottiti con poliuretano espanso (75IP e 30P) e rivestiti con vellutino bianco accoppiato a poliuretano espanso; schienale in legno multistrato rivestito con velfodera accoppiata a poliestere 300gr/mq.

Piedini

In metallo sagomato, finitura cromo lucido o black nickel.

Imbottitura

I cuscini dello schienale e dei braccioli sono imbottiti in piuma d'oca lavata e sterilizzata suddivisa in scomparti mista a fibra di poliestere, il tutto rivestito con tessuto di cotone bianco 100%. Il cuscino della seduta è realizzato con anima in poliuretano espanso 40IM e memory foam, rivestita con velfodera accoppiata a fibra di poliestere 280gr/mq.

[En] — Livingston creates a surprising effect through an unexpected use of the headrest which, by a simple rotation, becomes a comfortable backrest. It has a "smart" backrest to which a smaller cushion is attached with a zip.

The soft, informal seating rests on a light steel base that creates a dynamic contrast with the generous cushions.

The original, adjustable backrest and its characteristic full-length seat cushions give Livingston a unique silhouette ideally suited to creating an endless variety of arrangements.

Structure

In black painted metal; the seat is sprung with elastic straps reinforced with polypropylene; the metal armrests are padded with polyurethane foam (75IP and 30P) and covered in white velveteen backed with polyurethane foam; the back is in multi-layered wood, covered in velfodera backed with polyester 300gr/sqm.

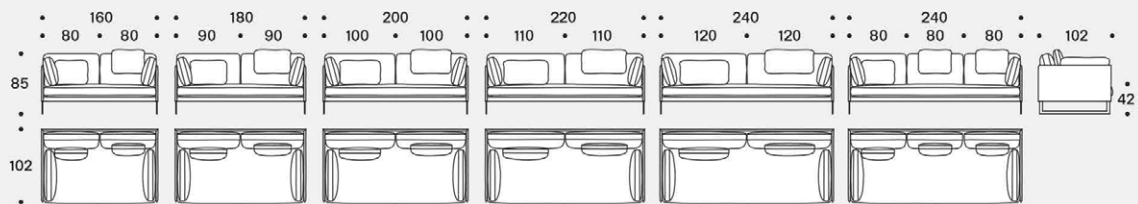

Feet

In shaped metal, glossy chrome or black nickel finish.

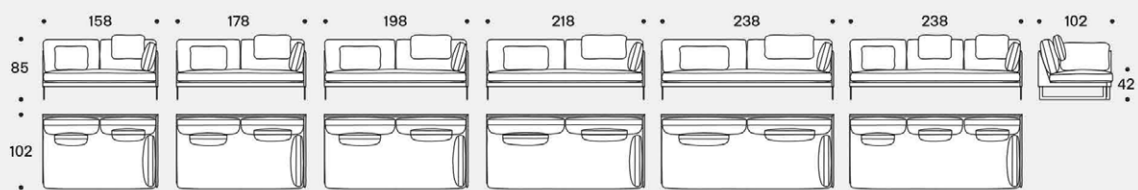

Padding

The backrest and armrest cushions are padded with washed and sterilized goose down, divided into sections mixed with polyester fiber, everything is covered in white 100% cotton fabric. Seat cushion is made with polyurethane foam core 40IM and memory foam, covered with velfodera on a polyester fiber 280gr/sqm.
